

## Parking and Security Arrangements at NIST

Your clearance and security has been arranged at NIST through NRC. Please note that everyone must have a NIST security badge, to be worn at all times. The badges are for the duration of your visit, and should be returned on leaving.

**NIST Gaithersburg Site:** On the first day, drive to the main gate A on Bureau Drive off of Clopper Road/West Diamond Avenue and keep to the right of the main gate. Park your car and collect your badge at the Visitors Center (a trailer) by the main gate. You will have to show a picture ID. After collecting your badge, you may drive to the appropriate building and park your car at the parking area in front of the building. For the Subpanel meeting for the Semiconductor Electronics Division (812), this will be Building 225, Technology. For the Subpanel meeting for the Quantum Electrical Metrology Division (818), this will be Building 220, Metrology. There will be someone to meet you inside at the front door of the building to show you to your meeting room. On the second day, drive through the main gate, keep to the left, show you badge, and proceed directly to your building, where again you will be met.

**NIST Boulder Site:** For the first day of the NRC Assessment Panel Meeting on February 24<sup>th</sup>, drive to the main entrance on Broadway and follow the one-way drive to the Guard Shack, where the Guard will check your name against a listing for the meeting. After clearance, continue along Compton Road, past Millikan Road, and turn left into the Visitor's parking lot. After parking take the sidewalk back on Compton Road and go to the front of the main building (Building 1) to the Visitor's Reception in the lobby. You will be met there, given your panel name badge and shown to your meeting room. On the second day, show your picture ID and personalized panel name badge to the Guard at the Guard Shack, then proceed to Visitor's Parking directly, again coming in to be met by a Division representative in the lobby.

- For the Subpanel meetings, each day please park the Visitor's Center and obtain a NIST Visitor badge. Then follow Compton Road as described above and park in the Visitor's parking lot.
  - For the Optoelectronics Division and Quantum Electrical Metrology Division Subpanel meetings, walk to the lobby of the main building as described above to be met there by a representative.
  - For the Electromagnetics Division subpanel meeting, walk from the Visitor's Parking to the door in the middle of the rear of the main building (Building 1), to be met by a representative there.
